**GREAT FROM GRASS  
PRODUCTION SALE**

# Welcome!

We're back, another year, our 15<sup>th</sup> on farm sale and we are very excited about it!

We really enjoyed our sale last year, we felt the offering was good and the trade reflected that but what really made it for us was the number of return buyers, some of whom we hadn't seen for a while purely because the sheep have lasted and other new customers keen to invest in genetics which don't melt.

We have utmost confidence in our genetics, they are tried and tested in a commercial environment without excessive feeding which enables us to grow our stock at a sensible pace.

Sale sheep receive no concentrates and are outwintered on grass and with a poorer swede crop for the first time we tried a new forage crop mixture which seemed to really suit them.

There are no bulls in the sale this year, we haven't ruled out trying some again but we felt that last year we spread ourselves a little thin on a personal level. We do of course have bulls available throughout the year and will have our annual 'Northern Lights' sale on February 27<sup>th</sup> 2027.

Our team have gone above and beyond to make this sale happen, we have a few new faces this year who are acclimatising to life at Fearn really well.

Off farm we have completed the renovation of our hotel and Shore opened its doors in June serving our own beef, lamb and pork along with fresh seafood from the harbour. We look forward to seeing you there if you have time after the sale where we will no doubt go to unwind.

As usual on sale day we will have local beer, Quintin from Storehouse is back with his Land Rover pizzas and Black Isle Dairy Ice Cream, any donations for Farmstrong Scotland would be greatly appreciated.

Thanks to our sponsors who help make the day happen, please take the opportunity to chat to them in the social area and finally thank you for coming we appreciate your support and wish you all the best with your purchases.

Best Regards

The Scott Family

# Sale Format

The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously.

The sale will be hosted via our Yourbid platform, accessed via our website – [www.fearnfarm.com](http://www.fearnfarm.com). Once registered, online buyers will receive a buyer number via email which will automatically accompany each bid placed. All live bids will always be visible online.

The sale will commence in the usual way via Yourbid on 20th August culminating on Friday 28th August both online and on farm with gimmers first at 2pm then Texels, Beltex, Beltex X Texel, Suffolks and SuffolkX at 3pm and finally Romneys, Romtex, RomField,  $\frac{3}{4}$  Romney  $\frac{1}{4}$  Aberfield and Aberfields at 4pm. Once there has been a period of at least two minutes without a bid being received on any lot.

If another bid is placed on any lot during the two-minute period, then time is extended, where bidding is open on all lots. Final time will be called clearly and discretion will be used to ensure all buyers are satisfied.

We would encourage all buyers to register 24 hours in advance of the conclusion of the sale and place practice bids on our demonstration lots ahead of the sale day, by doing this you will allow us to support you with any technical issue which we don't envisage but best to be prepared.

## Viewing

On sale day livestock will be available for viewing from 11am with food and refreshments available.

Prior to the sale, all lots will be filmed and photographed for you to view online. If you would like to physically view the stock prior to the sale, please contact John or James to arrange an appointment.

## Terms & Conditions

The sale will be conducted in pounds. Bidding increments will automatically set to the following unless overwritten by the purchasers via Yourbid:

Rams: £50

Gimmers: £10

## Post Sale

Invoices will be emailed direct from Fearn Farm and all sheep movements will be made via Scot EID by us, if sheep are moving to England or Wales you will need to notify LIS or EIDCymru, our holding number is 91/743/0004 .

We anticipate that some people will collect their purchases on the day of the sale whilst others may want to defer collection until transport can be arranged, please discuss this with John or James.

We can deliver locally and we'll work with hauliers to arrange delivery further afield.

All purchases to be settled before removal of stock from Fearn Farm if not previously arranged with John or Fiona Scott. Any party successfully bidding on a lot will be deemed to be liable for that account.

# Warranty

All Rams have been vet checked prior to the sale, we have done what we can to ensure they are fit for purpose. If you have any issues with your purchase post sale that means the ram is incapable of doing his job please get in touch, we are happy to help.

# Health Status

All rams and gimmers offered for sale are MV accredited and are on the Heptivac P system.

They have recently received the following treatments:

- Ovivac P booster
- Braxvixin 10

And prior to departure they will receive the following to allow them to enter your quarantine area:

- Cydectin 2% LA solution
- Zolvix

All Rams have been vaccinated for Blue Tongue

# Thank You!

The Scott Family would like to take this opportunity to say thank you to our team for pulling the sale together, Rachel Murray for her excellent Photography and our vet, Lucy, for her continued guidance and support.

## FEARN • FARM

Our stud flocks are performance recorded and we cull ruthlessly on an annual basis ensuring only the best are retained in our breeding program.

We make no apology for the fact that these sheep will not come to the rustle of a feed bag, if you want them to eat feed you will need to train them, we just don't have the time or the inclination for that.

What we present to you in this catalogue and on sale day represents the best that we have to offer from our 2025 crop of lambs, there's nothing here that we wouldn't retain ourselves and indeed many of the rams were used as ram lambs.

We have ultimate confidence that the sheep you buy today will perform well in any environment when managed well, please take the opportunity to discuss your requirements with us, we are here to help.
