Health:

Our flock is MV accredited and we maintain a strict quarantine and testing procedure which has lately helped us avoid bringing on CLA and we believe we are free of OPA. Rams will have been injected 10 days prior to the sale with Cydectin LA, which gives a quarantine cover against sheep scab and worms. Rams will be drenched with Zolvix. Rams are on the Heptivac P system – next booster due in spring.

TEXEL SIRES – GUIDE

Easton Dunsyre – (right as shearling) A really alert, free-moving, big ram with length and width behind. Out of a 7-crop ewe who has 17 progeny to her name. Dunsyre has a set of numbers that places him near the top sires in the UK. CT scan data has him pushing the boundaries for gigot shape, muscle area and number of vertebrae.

Incheoch Fat Sam – (right), high-seller last year and son of a Cambwell tup that had a phenomenal fat depth figure. Fat Sam has blended this higher fat trait with some tremendous carcass quality and Lambing Ease data. We're quite excited about how this guy has bred.

Kimbolton Fivestar – a chance purchase of a lamb with a nice outlook, lift of head and plenty length from a flock renowned for big, meaty shearlings and excellent growth figures. Like many purchased lambs, he didn't adapt very well to life at grass, despite high fat ebv, but left a good bunch of tight skinned rams.

Incheoch Frank the Tank – (right) This beefy Dunsyre son was too impressive a lamb not to use, being out of a 6-crop V Day daughter (dam of Lot 63). He has bred really high fats and plenty of the 'grunt' he showed as a lamb.

Incheoch Fisticuffs – (right) Sale leader last year, a son of Fearn Captain out of a 6-crop Fimber Yardstick ewe (Dam of Lots 22&23). A long, free-moving ram that turned up with good FEC.

Key to Lleyn Data

With example of Incheoch Legend who had over 500 progeny recorded in our flock between 2010–2015. He was an outstanding performer in his day and a good benchmark to demonstrate the change in performance levels of the recorded lleyn population. His daughters have been excellent, long-lasting ewes, neither small nor too big and he took us from weaning lambs fit for the store ring to fit for slaughter.

Lleyn Stock Sires

Pen F Sons of Knave (pictured right) & Kestral (sale toppers 2 years ago), both sons of the smart, bright headed Incheoch Jarl. From a sire-line that goes Jarl, Iceberg, Himalaya, Gael, Equity—picking up a pedigree stacked full of sensible, long-lasting, working ewes along the way. Tight-skinned, nice hair, medium framed sheep that are wide behind and bare around the tail.

Legacy – out of twin sister to Ithika who has some great daughters here—compact-made, thick and excellent wee mothers. By Knave, out of a Hercules ewe—Legacy is full of the type we like. A bit more power in Legacy rams, some higher birth weights.

Lightfoot— by Kestral out of a Gypsy King ewe that has scored 2 for mothering all 5 crops (see Lot 128). Lightfoot was a very long, level topped ram.

Lancer— sired by Knave, out of Kestral’s mother—a Duncan daughter who does a fantastic job of rearing lambs. Good maternals, low ewe weight and long, tight skinned sheep here.

Lairg - by Kintore (who was Jura, Islay, HiJinx—the same sire-line as Islander), and out an old 8 crop Buzz ewe. Lairg’s figures put him well within the fattest top 1% of the breed, and with excellent parasite resistance. Long, wide and low to the ground mark out this group.

Reuben - from Reuben Saunders, Boakley Lleyns. A son of Incheoch Gypsy King (a robust, traditional type), and out of a 6-crop ewe with a good in-flock efficiency index. Reuben is particularly low birth-weight, low mature weight, lots of fat and good parasite resistance. Pictured as a shearling.

Islander – this homebred senior stock ram is a trait leader for Parasite Plus index with good muscle too. His low ewe weight and high Condition Score figures are a testament to his pedigree which is stacked full of robust, long-lasting, hard working ewes, through rams like HiJinx, Gypsy King, Finnigan, Mustang and Legend. His mother weaned 14 lambs over 8 crops and never assisted.

Jedi – From the Nelless family at Thisleyhaugh. When we found a ram that was really good for worm resistance; good weights but low ewe weight; and in a long, low-to-the-ground frame with a cracking mouth—we thought we'd better have him. Finding that he was out of a 6-crop ewe was a great bonus. Pictured at Perth Show'23 as a 3-shear, he has matured into a big bodied ram in a medium frame.

Lionheart – out of a high index Equity daughter who has had 6 crops of twins. High maternal, high fat from dam's side, Lionheart was a more refined son of Jedi—with plenty length.

Landslide – When you have Rod McKenzie and Jamie Gammell both picking the same sheep, you know it's a good one. Landslide as Lot 94 in last years sale won that double accolade as a well balanced, very correct sheep with a a bit of substance. Another Jedi son out of a 5 crop Equity daughter.

Duncan – The old timer did 6 seasons with us with 635 progeny analysed—so his high maternal EBV is pretty accurate. Duncan breeds excellent daughters, very attentive and milky and sensible looking ewes to boot.

Lismore – Similar sire line to Islander (by Kerrera, Jura, Islay...), average figures but lots of old, productive ewes in his pedigree. Not least his mother with 14 lambs in 7 crops.

Lovat Scout – this long ram comes from a bit of a different ram line (Knight, Jacobite, Highlander) all medium framed, robust sheep with plenty body. Lovat (right), seems to have picked up a bit more length from his Ifor mother—and has bred a consistent line of long, good-bodied rams.

Excellent maternal figures and a little more growth than we're used to. Lovat

sold to Balnabroich last year, but we used 2 sons to keep this line working.

Thank you for supporting our 17th ram sale.

We do what we do because we believe in it and love doing it—it's only through your support that it becomes a success.

Please give us a call or stop by for a chat and look around the farm — help us get our sale and breeding programme in line with your goals.

From all the team at Incheoch.
